

RE: 2010 Mite Jamboree

ATTENTION HOCKEY FANS:

The Sauk Rapids Youth Hockey Association is proud to once again host a Jamboree for all Mites. The weekend Jamboree is an excellent way to cap off your Mite team season. The positive feedback from last year's attendees encouraged the Sauk Rapids Youth Hockey Association to host the Jamboree once again.

Enclosed you will find the 2010 Jamboree Registration Form. Feel free to copy the enclosed form and disburse it among your respective Mite teams (A, B, C, and D levels). The Jamboree has teams at all skill levels. It is our intent and goal to match up similar skilled teams in the same bracket to ensure that this is the end of the year event that everyone can feel good and comfortable with attending. To top it off, the last game for each team features an individual medal award ceremony that the participant skaters really cherish.

The games are played at the Sauk Rapids Sports Arena East, and the two sheets of ice at the National Hockey Center (campus of St. Cloud State University). Every team is guaranteed at least one game at the National Hockey Center, and most will have two games there.

A number of teams who were a part of the 2009 Jamboree have expressed interest in participating once again. In addition, other hockey associations that have heard of the success of the Jamboree have expressed an interest in joining the 2010 Jamboree. Don't hesitate to sign up early and save your team's spot. The earlier your team commits to the Jamboree, the easier it is for our committee to assign them into a bracket with similar skilled teams. The 2009 Jamboree included multiple teams from the following associations: Andover, Anoka, Blaine, Cambridge-Isanti, Chisago Lakes, Elk River, Mora, North Branch, Princeton, Rogers, St. Francis, St. Cloud and Sauk Rapids. Some associations sent over five teams last year. Secure your team's spot.

We look forward to seeing your team!

Tim Reuter - Mite Coordinator
Sauk Rapids Youth Hockey Association
